

ALEX CHO

PROFESSIONAL PROFILE

Frontend Software Engineer with a Full Stack background and a passion for crafting user-friendly digital solutions. I'm dedicated to continuous learning and currently based in Argentina, blending technical expertise with customer service experience. Let's connect and collaborate on innovative projects!

WORK EXPERIENCE

Junior Front-End Developer

2023-2024

Dimodo SRL

Collaborated in the development and maintenance of interactive web applications using front-end technologies such as HTML5, CSS, and JavaScript.

Participated in troubleshooting and optimizing website performance to ensure a smooth user experience.

Contributed to the development of reusable components and code libraries to improve efficiency and consistency of development.

Maintained a focus on continuous learning of new front-end technologies and development methodologies to enhance skills and contribute effectively to the team.

PROJECTS

Mercado Liebre - Full Stack

Mercado Liebre is a platform similar to MercadoLibre, dedicated to facilitating the buying and selling of X product. Our team utilizes both front-end and back-end development to create a comprehensive solution.
